- Upload your output to your Online DTR. → Select: Learning and Development → Others
→ Indicate: **GIP EXPECTATIONS**
- File name format: **LAST NAME_GIP_Expectations**

1. What are your expectations from the Government Internship Program?

I expect this program to provide me with a professional environment where I can learn how the government works. I hope to see how public servants handle their daily tasks and serve the citizens. I also expect to be given meaningful tasks that will help me grow as a student and a future professional. It is my expectation that this program will challenge me to become more disciplined and hardworking. Lastly, I hope to gain a better understanding of what it means to work for the country.

2. What skills or experiences do you hope to gain during your internship?

I hope to improve my communication skills by interacting with different people in the office. I also want to learn how to organize documents and handle administrative tasks properly. During this internship, I hope to experience how to work effectively as part of a professional team. I want to develop better time management skills so I can finish my assigned work on time. These experiences will give me more confidence when I eventually apply for a permanent job.

3. How do you think this program can help you in your future career or personal development?

This program will help me by giving me actual work experience that I cannot learn inside a classroom. It will teach me the value of professionalism and how to behave in an office setting. Personally, it will help me become more responsible and patient when facing difficult tasks. I can add this experience to my resume, which will make it easier for me to find a job in the future. Overall, this program is a great stepping stone for my personal and professional success.

4. What contributions can you offer to your assigned office/division?

I can offer my full dedication and willingness to learn every day. I will finish all my assigned tasks with accuracy and make sure they are done before the deadline. I am willing to assist my co-workers with any small or big tasks they might need help with. I will also bring a positive attitude and a respectful personality to the workplace. By being productive and following all the

rules, I can help make the office environment more efficient.

5. What are your expectations from your supervisors, focal persons, and co-workers during the program?

I expect my supervisors and focal persons to provide me with clear instructions and guidance on my tasks. I hope they can give me feedback so I will know how to improve my work. I expect my co-workers to be approachable and willing to share their knowledge with me. I hope for a supportive environment where everyone treats each other with respect and kindness. Having a good relationship with my team will help me perform my best during the internship.
